

# Where's Your IT Budget Really Going?

Use this worksheet to uncover hidden spend across your tech environment.

| Budget Area           | Monthly Spend               | Multiplier / Frequency      | Waste Warning / Notes                     |
|-----------------------|-----------------------------|-----------------------------|-------------------------------------------|
| Cloud Subscriptions   | <input type="text"/>        | x 12 months                 | Are you paying for unused seats or tools? |
| Software Licensing    | <input type="text"/>        | x 12 months                 | Any overlapping or redundant platforms?   |
| Break/Fix Support     | <input type="text"/>        | Variable                    | Reactive calls piling up?                 |
| Legacy Infrastructure | <input type="text"/>        | Maintenance + downtime cost | Outdated systems slowing you down?        |
| Shadow IT Tools       | <input type="text"/>        | Unknown                     | Unauthorized apps hiding in plain sight?  |
| IT Vendor Sprawl      | <input type="text"/>        | x # of vendors              | Managing too many small providers?        |
| Downtime (Est. Hours) | <input type="text"/><br>hrs | x \$[hourly rate]           | Productivity lost due to outages?         |
| Staff Time (Rework)   | <input type="text"/><br>hrs | x \$[hourly rate]           | Repeating manual processes unnecessarily? |

**Estimated Annual Waste Total:**
